Later, interruptions of Senator Fall's speech by Senator McCumber led to one of the bitterest exchanges since the treaty debate began.

Facing each other at a distance of a few feet, the two senators raised their voices and pounded their desks to emphasize their declarations.

When Senator Fall said that Senator McCumber had defended on the ground of justice the award to Japan of "goods stolen by Germany from China," Mr. McCumber sprang to his feet and shouted:

"I deny that statement as being absolutely false. I have taken the ground that the goods Germany was fair and honest."

DEATH CLAIMS GEORGE ANNON CRASH VICTIM

Fatal Results Follow Collision of Annon Motorcycle With Auto on Washington Avenue Tuesday.

Injured Man Passed Away Tuesday Evening as a Result of Fractured Skull And Nervous Shock.

The regrettable accident which occurred Tuesday morning resulted fatally when George Annon, residing on Ely street, died at the offices of Drs. Ireland and Brock at seven o'clock Tuesday evening from the shock of the collision.

Annon never fully regained consciousness after the accident and seemed dazed until his death in the evening.

The accident occurred early Tuesday morning at the intersection of the road which leads from the Hamm Fertilizer Plant to Washington Avenue. Annon, it is said, was riding a motorcycle and started to turn on to Washington Avenue when Frank DeWitt, driving an auto going towards Circleville approached the road. The motorcycle struck the DeWitt machine and threw Annon to the ground in a stunned condition. He was hurriedly rushed to a doctors office where medical attention was administered at once.

The accident was purely accidental—one of those affairs, regrettable but unavoidable and while it is deeply deplored, no blame is attached to the driver of the automobile.

FEAST OF SPORT ON DIAMOND FOR LABOR DAY

Double Header Either Sunday or Monday Will Be Played At Local Park.

Sunday and Monday will be the occasion of a three game series for the Washington Athletics with the Athens baseball club, it was announced Wednesday. It has not been decided as to whether the double header will be played on Sunday or Monday.

The Athens club, known as the Elk's Club, is said to be one of the strongest semi-pro aggregations in the state and has won 14 out of 18 games played this season.

In the matter of players the club boasts such performers as DeVore, a former Red and Giant, who covers center field. The fans will remember McGraynor, a clever hurler who has been in the big show and has played on the local lot, who is also a member of the Athens team.

This series promises to be the best in years on local diamonds and will no doubt attract fans from many of the surrounding towns. Manager Noon will use his strongest lineup against the visitors.

No Shortage in Labor At
Either of Big Local Plants
But More Help Could be

The two canning companies in this city, the Fayette Canning Company and the Sears & Nichols Canning Company are now in the midst of one of the busiest canning seasons ever experienced.

At the plants it is not an unusual sight to see more than half a hundred wagons lined up waiting to unload the corn which is pouring in from the surrounding corn growing district.

An authority at one of the plants states that the yield is the best in years, averaging from four to five tons to the acre. The quality is said to be of unusual high grade.

It is said at both plants that labor has been plentiful although the Fayette Canning Company will still be able to use more women workers. Large forces are employed by both companies.

The canning season will continue for several weeks, it is announced, and the largest pack in years is expected.

How to Preserve Pickles

Do Not Use
Cider Vinegar

After pickles are pulled, get into salt water quick. Leave in the brine at least 18 hours. Take pickles out and dry off thoroughly. Mix 1 1/2 cup salt, 2 lbs. Brown Sugar, 1 cup Coleman's Mustard in 1 1/2 gallon HEINZ WHITE VINEGAR and pour over pickles cold. Seal tight. Do not heat the vinegar, pickles or spices. Save the liquor and use over next year. So easy and so good. If you prefer the heating process for pickling use HEINZ REX AMBER SUGAR VINEGAR. Heat and use same as Cider Vinegar. BE SURE YOU GET HEINZ VINEGAR.

One at a Time

In disposing of the railroad shopmen's demands for an increased wage by appealing to their patriotism, their sense of right and justice and asking a postponement of the consideration of their claims until some future day when industrial conditions become more settled, the President has shown good judgment.

In his address to the one hundred representatives of the shopmen on Monday the chief executive called attention to the multitude of difficult problems the people and the government are facing and, as a consequence the absence of opportunity for giving proper consideration to their claims.

One of the most remarkable features in connection with these demands of laborers, and that of the shopmen is only one of many, is the insistence with which compliance is urged and the apparent disregard of all other related problems.

Every delegation of toilers seeking increases presents, with its claim, an insistent demand for immediate compliance, accompanied by a threat to strike and still further complicate industrial conditions.

It is proper that these toilers be given plainly to understand conditions, the impossibility of granting every demand without increasing the burdens which we are now seeking to lighten.

Every such demand should be placed squarely before all the people as this one of the shopmen has been because, after all, every one of them is for all the people and its solution cannot be properly accomplished without due regard for every other industrial, commercial and financial activity.

Prices cannot be reduced and every demand for increase granted.

The interested factions must await the "settling" processes patiently. Official activity cannot be exerted in both directions at the same time and accomplish any real good.

Benefits Apparent

Even Cincinnati admits that the workhouses and jails are undergoing a shrinkage in population as a result of the closing of the saloons.

Evidence of the beneficial effects of stopping the traffic in intoxicating liquors has been coming steadily for weeks now from every section of the country.

The falling off in the population of prisons is one of the direct and noticeable effects, the other benefits, as to health and prosperity will come along later and each oncoming generation will enjoy the change for good.

Even though the larger and more indirect benefits to health will not be so clearly noted by the present generation there is enough now to abundantly convince the voters, in the forthcoming election, that the open saloon should not be again made a part of our social fabric.

Only Politics

It is difficult to determine just how much politics there is in the announcement by the Senate Foreign Relations Committee that, among other subjects which it will include in its schedule of public hearings regarding the peace treaty, is the claim of Ireland for independence.

Judging by the past performances the public seems warranted in concluding that there is to be more politics than real sincerity of purpose in the hearings on the claim of Ireland and, in this particular instance the people hope it is politics—all politics in fact.

Even for the Senate to play politics with Ireland's demand for independence, at this time, is dangerous enough, but for the Senate to take up seriously that demand seems out of reason.

The Senate is considering, or should be, the terms of a treaty between the allied nations and nations with which the allied nations and the United States have been at war.

The nations of the world are endeavoring to settle in that treaty the problems which arose between nations as a result of that conflict.

It was not the province of the peace conference to settle the internal problems of the several nations composing the alliance against the Central Powers, and it did not seek to do so.

Great Britain and France would have just as much right to hear the claims of the railroad brotherhoods for control of the railroads under the Plumb plan as the United States has, through the medium of the Senate, to hear the demands of Ireland for independence.

Either the Senate Foreign Relations Committee is making a play for votes in scheduling the demand of Ireland among the subjects it is to hear and discuss or else it fails utterly to comprehend either the limits of its jurisdiction or the danger of its meddling.

POETRY FOR TODAY

ANSWER OF THE HILLS

Serene the great hills soar into the sky
Above the valley ways where to and fro
From hives of toil the workers come and go.
Nor pause to ask the Whither and the Why.
At dawn, when priest-winds chant from altars high,
At dusk, when Western windows flame and glow
With sunset fires alone the dreamers know
The hills have answers that can satisfy.

They answer not in speech yet answer still
The watcher on the eager roads of earth.
For stars are syllables in mountain speech,
And dawns have meanings over every hill
That hearts may know, if from their toil and mirth
They listen as the hills call each to each.

LADY SUFFERED FOR TWO YEARS

Stomach trouble never let up on her for one single day till she found Dreco, the new herbal remedy.

"For two long years I have been a patient sufferer from stomach trouble, constipation and a few other things," declares Mrs. Levada Thompson, the well known and highly respected lady who resides at 346 N. 10th St., Newark O., in a signed statement for publication. "I have spent many a dollar for medicine and doctor's bills, seeking relief from gastritis, dyspepsia, indigestion and constipation. My stomach often became so swollen from the gas that it felt like a rope tied around my body. No matter how careful I was about my food, it was the same; always that sourness, belching choked up feeling. My nerves became all unstrung, and I never knew a good night's rest. Heavy dragging pains in my back over my kidneys, became almost unbearable. My liver was sluggish, tongue coated; spots danced before my eyes; my limbs ached and my general health was about broken down.

"I am 52 years old and had given up hope of ever being strong and well again, but I am here today, praising Dreco for the grand, wonderful results it has given me. I am not like the same sickly, puny woman I was before, but feel good all over. Bowels act regularly; my food digests well, with no more gas or sour belching. The pains are gone from my back and limbs, and my liver is active again. Say anything you want to in the papers about Dreco, for you will not be able to fully express my gratitude to this great remedy."

All good druggists now sell Dreco and it is highly recommended in Washington C. H., by Frank Christopher. Adv.

MEMORIAL FOR DEAD COLONEL

(By Associated Press.)

Santa Ana, California, August 23.—Nathaniel Rochester, of Santa Ana, who was a member of America's famous "Lost Battalion" and who was killed in the Argonne, will be honored here in the same fashion that his great-grandfather, Colonel Nathaniel Rochester, founder of the city of Rochester, N. Y., and one of Washington's officers in the Revolutionary War, was honored in the city he founded.

In St. Luke's church, Rochester, is a bronze tablet, in memory of a Colonel Rochester. A replica will be placed in the Episcopal church here. It will bear this inscription:

In memory of Nathaniel Rochester, Co. B, 308th U. S. Infantry. Born Nov. 8, 1897. Killed in France while fighting for the "Lost Battalion," Oct. 8, 1918. Just like skipping a grade in school."

In a letter written to his mother while he was at the front, Rochester said that "making the supreme sacrifice," would be just like skipping a grade in school."

As a general thing, when a woman is first married she is afraid her husband won't go to heaven, but in a few years she becomes reconciled.

The extent of Mr. Strain's injuries is undetermined, but he is believed to be seriously hurt. The injured man, who served overseas, had but recently been released from an army hospital.

A WET VICTORY WOULD OPEN ALL THE OHIO SALOONS

Ohio Will Stage a Wet and Dry Election in November of Great Importance.

(By Associated Press.)

Columbus, O., August 28.—Ohio will stage a wet and dry election this November, although the result could not immediately throw open saloons in event of a wet victory, may have a far reaching effect upon national prohibition.

The Buckeye state voted dry last November by a margin of approximately 25,000 votes, and is the largest state to have voted for prohibition before national prohibition became effective. At this time, Ohio promises to be the only big state that will again vote upon prohibition this fall.

Both wets and dries are said to be concentrating their forces in Ohio for the coming fight which, it is intimated will have a powerful effect upon the 1920 campaign as it will effect federal prohibition. Should the wets win a sweeping victory in Ohio this fall, it is pointed out that they can go to the voters of the country next year and, by showing that the biggest prohibition state has reversed on the question, urge the election of a wet congress and the repeal of federal prohibition. Should the state again vote dry, it is pointed out that the prohibition forces can use the fact as an argument for the election of a dry congress and the continuation of national prohibition.

The following prohibition questions will be submitted to Ohio voters November 4th:

1. Shall state-wide prohibition be discontinued?
2. Shall brewers be given authority to manufacture and sell beer with 2.75 percent alcohol?
3. Shall the action of the Ohio legislature in ratifying the federal prohibition amendment be approved or rejected?
4. Shall the Crabbe state-wide prohibition enforcement bills passed by the last legislature become effective or be invalidated?

The vote on state-wide prohibition will be on a constitutional amendment repealing that section of the Ohio constitution inserted last fall providing for state-wide prohibition. The proposed amendment would re-establish the license system. The proposal to permit the manufacture of 2.75 percent beer also is in the form of a constitutional amendment. Both were initiated by the Ohio Home Rule association. The vote on the action of the legislature in ratifying national prohibition will be a straight referendum as will the action on the Crabbe bills. Both referendums were called by the wets.

Should the amendment repealing state-wide prohibition be adopted, the sale of intoxicating liquors in Ohio could not be resumed as long as national prohibition is in effect. A favorable vote on the proposal for the manufacture of 2.75 percent beer would permit the immediate manufacture and sale of beer with that percent alcohol unless congress before then specifies by law a beer with a lower per cent of alcohol as intoxicating. If this amendment is adopted and if congress specifies a lower percent of alcohol makes beer intoxicating, it is said that the courts will be asked to decide whether the states of congress has authority to fix the standard.

This amendment specifies that beer with 2.75 percent alcohol or less is non-intoxicating, and can be manufactured and sold as a soft drink. The dries claim that adoption of this amendment would permit beer saloons to reopen throughout the state in both former wet and dry territory. They also contend that under such conditions, no liquor tax could be collected and that beer saloons could not be regulated.

The referendum on the action of the Ohio legislature in ratifying national prohibition last winter is causing considerable discussion, and the effect of a favorable vote is being warmly debated. The federal constitution provides that proposed constitutional amendments must be submitted to the various states by congress and that such amendments shall

become effective when the legislatures of three-fourths of the states ratify. The wets hold that where states have the initiative and referendum, as in Ohio, the action of the legislature in such instances is subject to a referendum. The dries contend that such is not the case and that the action of the legislature is binding upon the state. Conflicting decisions on this question have been made in several states and will be carried to the United States supreme court for a final decision, it is said. Under the Ohio constitution, the Crabbe bills are subject to a referendum, as are all other laws passed by the legislature without emergency clauses

SPECIAL "UPPERS" ARE BLOWN FROM FACTORY WINDOW

On Tuesday at The P. Hagerty shoe factory in Millwood three or four pair of mouse colored uppers for shoes, lying on the sill of an upstairs window, were blown out by a sudden gust of wind.

The employee in charge went down on the ground at once but before her arrival on the ground some passer-by evidently not realizing their value had taken the uppers away. The supposition is that some passing rag gatherer took them believing they were discarded.

The uppers are worth no more than rags to anyone else, but to the shoe factory they are worth quite a good deal. Leather has been cut to match the lost uppers and if they are not found it means a long delay in filling a special order.

The shoe factory is hoping that when the finder learns of the conditions the uppers will be returned.

WELD FLAYS THE TRADE COMMISSION

(By Associated Press.)

Washington, August 27.—Reports of the Federal Trade Commission on the five large packers and their alleged control of the industry are "absolutely useless as a basis for passing legislation," L. D. Weld, representative of Swift & Company, assured the Senate Agriculture Committee today.

Summing up his two-day argument against federal regulation of the industry as proposed in the Kenyon and Kendrick bills, he challenged the truth of the commission's findings in a half dozen particulars and ended by assailing the commission itself.

Give Me a Friendly, Natural Hand-shake

an' a friendly natural tobacco. Keep yo' put-on airs an' "sauced-up" tobaccos for the fellow that likes nut sundaes better than home made pie—

So says a friend of ours named Velvet Joe. And he just about hits the nail on the head.

Velvet is made for men who think there's no smoke like real tobacco. If you are that sort of man, listen:

Velvet was born in old Kentucky, where more than one good thing comes from. It was raised as carefully as any other Kentucky thoroughbred. But the real secret of Velvet's friendly qualities is its slow natural ageing in wooden hogsheads. Ageing in the wood never hurt anything—and least of all, tobacco.

And so we say, Velvet is good tobacco—nothing more or less. It runs second to none.

The picture of the pipe on the tin needn't keep you from rolling a jim-dandy cigarette with Velvet.

BRITISH HEAVY, WHO MAY COME TO U. S., FINDS SCULLING HELPS KEEP HIM IN TRIM

Bombardier Wells, former English heavyweight champ, ready for a sculling race.

Bombardier Wells, most famous of the English heavyweights, although Joe Beckett is considered the best man in England now, has a novel plan for keeping in shape for the ring. He spends his leisure time sculling. He is an expert rower and can pull the light shell through the water at a good pace. There has been talk of him coming to the U. S. in the near future. Whether or not any attempt will be made to match him with Dempsey isn't known.

MILLEDGEVILLE I. O. O. F. PICNIC BIG SUCCESS

More Than Twelve Hundred People Attend and Enjoy Outing Ideal In Every Way.

What is said to have been the most successful I. O. O. F. Picnic held by the Milledgeville Odd Fellows Lodge was held Tuesday in the Smith Grove near Milledgeville. The attendance is said to have been more than twelve hundred.

It was more than a picnic. It was a picnic, field day and home coming combined and the Milledgeville lodge had spared no expense to make it one of the best.

Two well known local speakers delivered addresses during the afternoon. Hon. Frank Parrett, State Senator of the Fifth-Sixth District, and Rev. William Boynton Gage, who recently returned from service overseas where he was a Y. M. C. A. worker in France, spoke to large audiences.

Providing entertainment for the little folks was a company of circus performers. The Harry Gage Acrobatic Troupe made a decided hit with old and young.

A ball game between the South Solon nine and the Milledgeville team resulted in a score of 13 to 3 in favor of the visiting team.

Hundreds came early in the day and enjoyed picnic dinners while many more came from surrounding towns later in the day. Quite a number from this city attended.

The playing of the Milledgeville Band was a feature of the day and was roundly applauded for the excellent music furnished. This band is said to be an excellently well balanced organization.

The committee, composed of Messrs. Urie Acton, John Ferguson and J. E. Osborn, report that the picnic was a great success from every standpoint. Tuesday's picnic marked the third annual gathering held under the auspices of the Milledgeville Lodge.

Fingers crushed in big machine amputation made. Mrs. Joseph Hire, an employee of the Sears & Nichols Canning Company, had the first two fingers of her right hand crushed while operating a machine Tuesday evening. She was removed to the Stitt-Todhunter offices where the fingers were amputated.

The accident occurred, it is said, while Mrs. Hire was in the act of leaning the machine. Her fingers were caught in a chain which crushed them almost completely from her hand.

PROWLERS DISTURB CITY RESIDENTS

It has been reported to police headquarters that on Monday and Tuesday nights of this week two unknown persons attempted to break into the Charles Wynn home on Forest street. Prowlers are reported to have been seen elsewhere in the city and householders are preparing to give them a warm welcome if there are future raids.

Put Up Every Pound of Fruit You Can Get This Summer

Delicious Jams, Jellies and Preserves made by this recipe:

Many a woman hesitates to try putting up fruit at home.

She fears she will only waste expensive materials.

It really is very simple. Just make your preserving syrup with 1/2 Karo (Red Label) and 1/2 sugar instead of sugar alone.

You can then be as sure of your results as the woman who always has "luck" with her preserving.

Nice fine, clear Karo Syrup has a natural affinity for the fruit juices. It blends the sugar with the juice—brings out the rich "fruity" flavor, and insures firm jams and jellies that never "candy" in the glass.

A well-filled fruit pantry will give you much pleasure this winter, when fresh fruits are scarce and high, if you just use Karo Syrup with your sugar.

For Cooking, Baking and Candy Making Karo (Red Label) is used in millions of homes. In all cooking and baking recipes use Karo instead of sugar. It is sweet, of delicate flavor, and brings out the natural flavor of the food.

FREE Preserving is easy when you have the sixty-eight page Corn Products Cook Book handy. Wonderful recipes—easy to follow. Beautiful illustrations. Write us today for it. It is free.

BE ON WATCH FOR P. O. ORDERS STOLEN AT FLINT

The Postoffice Department reports that on August 18, 1919, blank money order forms Nos. 16160 to 16200, inclusive, were stolen from Station 7 of the post office at Flint Michigan.

It is reasonable to believe that the money order forms mentioned will be filled out by the burglars and attempts made to cash them at stores and hotels. One of the thieves is in jail at Flint, but others are still at large and attempts have already been made at Toledo, Ohio, to cash some of the stolen orders.

It is therefore requested that the police authorities, hotels and merchants be informed as to the theft of these orders, in order that they may be on the lookout and that in the event any are presented for payment, steps be taken to cause the arrest of the offender.

If any information is obtained request is made to wire, at once, the office of the Inspector in charge, Cincinnati Division, at Cincinnati, Ohio.
